The Power of Noticing - Max Bazerman 2014-08-05

A "must-read" (Booklist) from Harvard Business School Professor and Codirector of the Harvard Kennedy School's Center for Public Leadership: A guide to making better decisions, noticing important information in the world around you, and improving leadership skills. Imagine your advantage in negotiations, decision-making, and leadership if you could teach yourself to see and evaluate information that others overlook. The Power of Noticing provides the blueprint for accomplishing precisely that. Max Bazerman, an expert in the field of applied behavioral psychology, draws on three decades of research and his experience instructing Harvard Business School MBAs and corporate executives to teach you how to notice and act on information that may not be immediately obvious. Drawing on a wealth of real-world examples and using many of the same case studies and thought experiments designed in his executive MBA classes, Bazerman

challenges you to explore your cognitive blind spots, identify any salient details you are programmed to miss, and then take steps to ensure it won't happen again. His book provides a step-by-step guide to breaking bad habits and spotting the hidden details that will change your decision-making and leadership skills for the better, teaching you to pay attention to what didn't happen, acknowledge self-interest, invent the third choice, and realize that what you see is not all there is. While many bestselling business books have explained how susceptible to manipulation our irrational cognitive blind spots make us, Bazerman helps you avoid the habits that lead to poor decisions and ineffective leadership in the first place. With The Power of Noticing at your side, you can learn how to notice what others miss, make wiser decisions, and lead more successfully.

The Long Shadows - Alan Brownjohn 1997

Skilfully crafted and beautifully written, this novel is the story of Tim Harker-Jones, a writer, bequeathed with the task of undertaking a biography of a friend from the past, an apparently xenophobic British novelist whose character could be thought to bear some resemblance to Philip Larkin. Set against the background of Thatcher's England and Ceusecsu's Romania, his task involves a series of intrigues that intertwine cultural, ambition and political expediency and reveal a truth far more complex than he initially expected.

Yugoslavia and Its Historians - Norman M. Naimark 2003-02-19

Most of what has been written about the recent history of Yugoslavia and the fierce wars that have plagued that country has been produced by journalists, political analysts, diplomats, human rights organization, the United Nations, and other government and intergovernmental organizations. Professional historians of Yugoslavia, however, have been strangely silent about the wars and the breakup of the country. This book is an effort to end that silence. The goal of this volume is to bring together insights from a distinguished group of American and European scholars of Yugoslavia to add depth to our historical understanding of that country's recent struggles. The first part of the volume examines the ways in which images of the Yugoslav

past have shaped current understandings of the region. The second part deals more directly with the events of the recent past and also looks forward to some of the problems and future prospects for Yugoslavia's successor states.

Gregory of Nyssa Against Eunomius - Saint Gregory of Nyssa 2016

It seems that the wish to benefit all, and to lavish indiscriminately upon the first comer one's own gifts, was not a thing altogether commendable, or even free from reproach in the eyes of the many; seeing that the gratuitous waste of many prepared drugs on the incurably-diseased produces no result worth caring about, either in the way of gain to the recipient, or reputation to the would-be benefactor. Rather such an attempt becomes in many cases the occasion of a change for the worse. The hopelessly-diseased and now dying patient receives only a speedier end from the more active medicines; the fierce unreasonable temper is only made worse by the kindness of the lavished pearls, as the Gospel tells us. I think it best, therefore, in accordance with the Divine command, for any one to separate the valuable from the worthless when either have to be given away, and to avoid the pain which a generous giver must receive from one who treads upon his pearl, and insults him by his utter want of feeling for its beauty.

The Byzantine Apocalyptic Tradition - Paul Julius Alexander 1985-01-01

The Transfiguration of Romania - Emil Cioran 2015-08-13

A close friend of Eugene Ionesco and Mircea Eliade as well as - in his later Paris years - Paul Celan and Samuel Beckett, the Romanian philosopher and essayist Emil Cioran is an important figure in central European Modernism. Cioran's existentialism channelled many seminal intellectual influences of the time from Kant, Schopenhauer and Nietzsche to Georg Simmel, Martin Heidegger and Henri Bergson. More controversially, it was also a philosophy that took on distinctly fascist overtones in the inter-war years, especially in his early work *The Transfiguration of Romania*. Now available for the first time in English translation, the publication of *The Transfiguration of Romania* casts new light on Modernist culture's engagement with the rise of European fascism between the wars. Supported by an extended introduction that explores Cioran's life, work and enduring influence up to the present day as well his ongoing engagement with the far-right in Romania and beyond, this is a crucial text for anyone seeking to understand the rise of fascist culture in Europe in the interwar period.

Adventures In Immediate Irreality - Max Blecher 2015-02-17

In gliding chapters that move with a peculiar dream logic of their own, this memoiristic novel sketches the tremulous, frightening, and exhilarating awakenings of a young man.

The Music of the Other - Laurent Aubert 2017-10-03

We are surrounded by new musical encounters today as never before, and the experience of musics from elsewhere is progressively affecting all arenas of the human conscience. Yet why is it that Western listeners expect a certain cultural and ethnic 'authenticity' or 'otherness' from visiting artists in world music, while contemporary musicians in Western music are no longer bound by such restraints? Should we feel uncomfortable when sacred rites from Asia or Africa are remade for Westerners as musical entertainment? As these thorny questions suggest, the great flood of world musics and of their agents into our most immediate cultural environment is not a simple matter of expanding global musical exchange. Instead, complex processes are at work involving the growth of intercontinental tourism, the development of new technologies of communication and our perceptions both of ourselves and of the new musical others now around us. Elegantly tracing the dimensions of these new musical encounters, Laurent Aubert considers the impact of world musics on our values, our habits and our cultural practices. His discussions of key questions about our contemporary music culture widen conventional ethnomusicological perspectives to consider not only the nature of Western society as a 'global village' but also the impact of current Western demands on the future of world musics and their practitioners.

John Calvin's Ecclesiology - Gerard Mannion 2011-08-04

This unique work analyzes the crisis in modern society, building on the ideas of the Frankfurt School thinkers. Emphasizing social evolution and learning processes, it argues that crisis is mediated by social class conflicts and collective learning, the results of which are embodied in constitutional and public law. First, the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis. It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society, and posits that a crisis of legitimization is at the core of all crises. It then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system. This volume in the *Critical Theory and Contemporary Society* by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology, political theory, and law.

Clitics in Phonology, Morphology and Syntax - Birgit Gerlach 2001-02-01

This book contains fourteen articles that reflect current ideas on the phonology, morphology, and syntax of clitics. It covers the forms and functions of clitics in various typologically diverse languages and presents

data from, e.g. European Portuguese, Macedonian, and Yoruba. It extensively deals with the prosodic structure of clitics, their morphological status, clitic placement, and clitic doubling. The form and behavior of clitics with respect to tonal phenomena and in verse are discussed in two articles (Akinlabi & Liberman, Reindl & Franks). Other articles address the prosodic representation of clitics in Irish (Green), the differences in the acquisition of clitics and strong pronouns in Catalan (Escobar & Gavarro), the similarities between clitics and affixes or words in Romance and Bantu languages (Cocchi, Crysmann, Monachesi, Ortman & Popescu), the semantics of clitics in the Greek DP and in Spanish doubling (Alexiadou & Stavrou, Uriagereka), and complex problems concerning verbal clitics in Romanian and Balkan languages (Legendre, Spencer, Tomic).

Semiotics in the United States - Thomas Albert Sebeok 1991

"As a glimpse onto U.S. American semiotics through the mind's eye of a witness, participant-observer, architect, and midwife, this slim but rich book fulfills its title." --Journal of Linguistic Anthropology "This book is an invaluable historical, conceptual, and anecdotal account of the rise of semiotics in the United States." --Review of Metaphysics Sebeok, who has done more to establish the field of semiotics in the United States than any other single scholar, here draws upon his personal experiences of half a century to present the achievement and current status of semiotics in this country. He focuses on salient individuals

and intellectual issues, including theatre, television, folklore, sociology, tourism, and graphic design. He also examines semiotic applications to architecture, marketing and advertising, jurisprudence, and medicine.

Universities in Imperial Austria, 1848-1918 - Jan Surman 2019

Combining history of science and a history of universities with the new imperial history, *Universities in Imperial Austria 1848-1918: A Social History of a Multilingual Space* by Jan Surman analyzes the practice of scholarly migration and its lasting influence on the intellectual output in the Austrian part of the Habsburg Empire. The Habsburg Empire and its successor states were home to developments that shaped Central Europe's scholarship well into the twentieth century. Universities became centers of both state- and nation-building, as well as of confessional resistance, placing scholars if not in conflict, then certainly at odds with the neutral international orientation of academe. By going beyond national narratives, Surman reveals the Empire as a state with institutions divided by language but united by legislation, practices, and other influences. Such an approach allows readers a better view to how scholars turned gradually away from state-centric discourse to form distinct language communities after 1867; these influences affected scholarship, and by examining the scholarly record, Surman tracks the turn. Drawing on archives in Austria, the Czech Republic, Poland, and Ukraine, Surman analyzes the careers of several thousand scholars from the faculties of philosophy and medicine of a number of Habsburg universities, thus covering various moments in the history of the Empire for the widest view. *Universities in Imperial Austria 1848-1918* focuses on the tension between the political and linguistic spaces scholars occupied and shows that this tension did not lead to a gradual dissolution of the monarchy's academia, but rather to an ongoing development of new strategies to cope with the cultural and linguistic multitude.
