A quick easy-to-use reference book for medical students, nurses, doctors, hospital

administrators, health care personnel, home health care workers, social workers and translators in the health profession. The dictionary and alphabetical phrase book format makes it easy to find and cross reference the right words and phrases.

Indo-European and the Indo-Europeans -

Thomas V. Gamkrelidze 1995-01-01

"Gamkrelidze and Ivanov's wide-ranging and interdisciplinary work, superbly translated from Russian, is a must for every student of Indo-European prehistory. Its erudition is unsurpassed, and its unorthodox conclusions are a continuing challenge." Prof. Dr. Martin Haspelmath, Max-Planck-Institut für Evolutionäre Anthropologie The authors propose a revision of views on a number of central issues of Indo-European studies. Based on findings of typology, they suggest a new analysis of the phonological system of Proto-Indo-European (the 'Glottalic Theory'); they offer novel assumptions about the relative chronology of changes in PIE vowels and laryngeals. Their conclusions are compared with data from Proto-Kartvelian. In the second part of the book, semantically organized presentation of material from the lexicon is combined with analyses of the use of forms and formulae in a broadly defined cultural context. Again similarities with properties of primarily Kartvelian and Semitic are described, and extended close contacts with these language families are postulated. This necessarily leads to a proposal to place the hypothetical Urheimat of the Indo-Europeans in the region south of the Caucasus. Volume I and II of the original Russian edition have been combined in the English version as Part I; the Bibliography and Indexes are published as Part II.

The Syntax of Spoken Brazilian Portuguese -
Earl W. Thomas 1969

Increased personal contact among people of all parts of the world has underscored the inadequacy of traditional language study to meet contemporary communications needs. Linguistic science, in recent years, has responded to this breakdown of communications by emphasizing spoken, versus literary, language in the teaching of foreign languages. Very real differences do exist between what is spoken and what is written in virtually every language. In Brazilian Portuguese, especially, the gulf between the two

is wide: In many cases, the most cultured Brazilian is unable to comprehend with ease Brazilian literature written only fifty years ago. **THE SYNTAX OF SPOKEN BRAZILIAN PORTUGUESE** is the first thorough analysis of the spoken language of contemporary Brazil, in English, for students and teachers of the language. Useful as a text in advanced language courses, the work is intended primarily for reference and as a research aid to future authors of Portuguese language textbooks.

De Viva Voz! - Michael D. Thomas 2001

Clear Grammar 1 - Keith S. Folse 2010

Presents an introduction to grammar along with a variety of exercises for English language learners.

Spanish On Your Own Vol. 1 - Spanish on Your Own 2000

History, Society and Variation - J. Clancy Clements 2006-07-19

This volume presents a collection of new articles by sixteen specialists in the field of pidgin and creole studies, assembled in honor of the world-renowned creolist, Albert Valdman. The articles, written from a variety of theoretical perspectives, are organized thematically in three sections: on the history of specific pidgins or creoles (including Louisiana Creole and Haitian Creole); on the sociohistorical settings that gave rise to these contact languages and issues affecting their future development; and on issues of linguistic variation and change. In keeping with Valdman's own primary interests, the French-based creoles receive the most attention, including both those of the Atlantic zone and those of the Indian Ocean, but the volume also presents significant scholarship on English- and Portuguese-based varieties.

Aspects of Language Contact - Thomas Stolz 2008-08-27

This edited volume brings together fourteen original contributions to the on-going debate about what is possible in contact-induced language change. The authors present a number of new vistas on language contact which represent new developments in the field. In the first part of the volume, the focus is on methodology and theory. Thomas Stolz defines the study of Romancisation processes as a very

promising laboratory for language-contact oriented research and theoretical work based thereon. The reader is informed about the large scale projects on loanword typology in the contribution by Martin Haspelmath and on contact-induced grammatical change conducted by Jeanette Sakel and Yaron Matras. Christel Stolz reviews processes of gender-assignment to loan nouns in German and German-based varieties. The typology of loan verbs is the topic of the contribution by Søren Wichmann and Jan Wohlgemuth. In the articles by Wolfgang Wildgen and Klaus Zimmermann, two radically new approaches to the theory of language contact are put forward: a dynamic model and a constructivism-based theory, respectively. The second part of the volume is dedicated to more empirically oriented studies which look into language-contact constellations with a Romance donor language and a non-European recipient language. Spanish-Amerindian (Guaraní, Otomí, Quichua) contacts are investigated in the comparative study by Dik Bakker, Jorge Gómez-Rendón and Ewald Hekking. Peter Bakker and Robert A. Papen discuss the influence exerted by French on the indigenous languages of Canada. The extent of the Portuguese impact on the Amazonian language Kulina is studied by Stefan Dienst. John Holm looks at the validity of the hypothesis that bound morphology normally falls victim to Creolization processes and draws his evidence mainly from Portuguese-based Creoles. For Austronesia, borrowings and calques from French still are an understudied phenomenon. Claire Moyse-Faurie's contribution to this topic is thus a pioneer's work. Similarly, Françoise Rose and Odile Renault-Lescure provide us with fresh data on language contact in French Guiana. The final article of this collection by Mauro Tosco demonstrates that the Italianization of languages of the former Italian colonies in East Africa is only weak. This volume provides the reader with new insights on all levels of language-contact related studies. The volume addresses especially a readership that has a strong interest in language contact in general and its repercussions on the phonology, grammar and lexicon of the recipient languages. Experts of Romance language contact, and specialists of Amerindian languages, Afro-Asiatic languages, Austronesian languages and Pidgins

and Creoles will find the volume highly valuable. Short Cut to Spanish - Thomas Philip Terry 1920

French Grammar Drills - Eliane Kurbegov
2007-06-26

Sharpen your French grammar with skill-building exercises If you want to be proficient in French, you eventually have to clear the bothersome hurdle of grammar. This comprehensive book features: More than 150 exercises that demonstrate how the French grammar system works as well as review exercises to reinforce your learning An answer key to give you immediate clarification on any concept o Quick reviews bring you up to speed on grammar Topics include: Indefinite and definite articles * Demonstrative adjectives * Possessive pronouns * Conjunctions * Imparfait and passé composé * Verbal expressions and idioms * and more

The Loom of Language - Frederick Bodmer
1985

Here is an informative introduction to language: its origins in the past, its growth through history, and its present use for communication between peoples. It is at the same time a history of language, a guide to foreign tongues, and a method for learning them. It shows, through basic vocabularies, family resemblances of languages -- Teutonic, Romance, Greek -- helpful tricks of translation, key combinations of roots and phonetic patterns. It presents by common-sense methods the most helpful approach to the mastery of many languages; it condenses vocabulary to a minimum of essential words; it simplifies grammar in an entirely new way; and it teaches a language as it is actually used in everyday life.

The New Pocket-dictionary of the French and English Languages ... - Thomas Nugent 1797

The universal instructor, or, Self-culture for all - Ward, Lock and co, ltd 1884

Costa Rica Spanish Phrasebook - Thomas Kohnstamm 2000

Tongue-tied travellers need not despair. This compact Lonely Planet phrase book provides a two-way dictionary, a pronunciation guide and keys to mastering the local idiom. Also included are handy maps and detailed sections on food, accommodations and travel. A special section covers the flora and fauna of Costa Rica.

A Practical Guide to Spanish Grammar - Thomas R. Coates 1990

New First Spanish Book - Lawrence Augustus Wilkins 1925

The Universal Self-instructor and Manual of General Reference - Albert Ellery Berg 1883

"The Universal self-instructor is nothing less than it pretends to be: an Epitome of Forms, especially adapted for purposes of self-instruction and general reference in the various departments of Education, Commerce, Law, Home, Society, and Amusements. Every young man and young woman ; every business man, farmer, and mechanic ; every housewife and lady of society ;--in fact every intelligent member of the community should have it within reach for consultation on those numerous minor matters that a well-educated person is supposed to know. The Reading Public has been amply supplied for years with reference books of every description, but the present volume may be said to occupy a field peculiarly its own, as the people have never before been furnished with a publication embracing in a single volume such a quantity of practical information, and treating the wants of every-day life in a lucid, instructive and agreeable manner. Such articles as Elocution, Penmanship, Book-keeping, Letter-writing, Mercantile Law, Music, Stenography, Phrenology, Agriculture, Social Etiquette, Outdoor Sports, In-door Amusements, Physical Culture, The Domestic Circle, Household Receipts, Parliamentary Law, etc., have been prepared by writers of reputation and large experience in the special subjects given them for treatment"--Preface.

[The Everything Learning Spanish Book Enhanced Edition](#) - Andrew R Thomas 2011-06-01

The Everything Learning Spanish Book (Enhanced Edition) is your perfect guide for learning to speak and write in Spanish. Whether

you're planning a vacation in Mexico or adding a valuable second language to your resume, this valuable book helps you order the right dish in a restaurant, answer customers' questions, or converse with locals when traveling. Annals of the New York Academy of Sciences - Thomas Lincoln Casey 1905

Records of meetings 1808-1916 in v. 11-27.

The Evolution of Spanish - Thomas A. Lathrop 2003

For a long time American students have needed an introductory Spanish historical grammar specifically written for them; the standard book on the subject, Menendez Pida's Manual de gramatica historica, was written around the turn of this century in Spain, when students were expected to know Latin. Most students of today have no background in Latin since the modern curriculum has placed emphasis elsewhere. In this standard manual, Lathrop offers a detailed preliminary chapter dealing with the basic facts of Classical Latin important to the development of Spanish, as well as a detailed picture of Vulgar Latin--the language of the masses. It was this spoken language which was the origin of Spanish. In the second chapter he explains the evolution of vowels and consonants from Vulgar Latin to Spanish, with numerous examples illustrating each point. In the third chapter, he shows how the various grammatical forms, most particularly nouns, adjectives and verbs, evolved from Vulgar Latin to Spanish, again with many examples of reach section. At the end of the

volume there is a useful index of words, a detailed, updated bibliography, a translation of Latin words into English, and a general index.

A New Pocket Dictionary of the French and English Language ... - Thomas Nugent 1821

French Grammar - Thomas Cox 1986

Covers nouns, articles, adjectives, adverbs, possessives, pronouns, tenses, and idioms, and provides exercises and review tests

Classical Syriac - T. Muraoka 1997

Introduction to the Natural History of Language

- Thomas George Tucker 1908

A Grammar of Spoken Brazilian Portuguese - Earl W. Thomas 1974

Divided into 29 separate lessons, and including an introductory section on syllabification, stress, written accents, and pronunciation, "A Grammar of Spoken Brazilian Portuguese" features an abundance of exercises and readings and is well-suited to students who are seeking a concise introductory text focusing on modern Brazilian Portuguese. (Foreign Language)

If I Could Turn My Tongue Like That - Thomas Klingler 2003-08-01

If I Could Turn My Tongue Like That, by Thomas Klingler, is an in-depth study of the Creole language spoken in Pointe Coupee Parish, Louisiana, a community situated on the west bank of the Mississippi River above Baton Rouge that dates back to the early eighteenth century. The first comprehensive grammatical description of this particular variety of Louisiana Creole, Klingler's work is timely indeed, since most Creole speakers in the Pointe Coupee area are over sixty-five and the language is not being passed on to younger generations. It preserves and explains an important yet little understood part of America's cultural heritage that is rapidly disappearing. The heart of the book is a detailed morphosyntactic description based on some 150 hours of interviews with Pointe Coupee Creole speakers. Each grammatical feature is amply

illustrated with contextual examples, and Klingler's descriptive framework will facilitate comparative research. The author also provides historical and sociolinguistic background information on the region, examining economic, demographic, and social conditions that contributed to the formation and spread of Creole in Louisiana. Pointe Coupee Creole is unusual, and in some cases unique, because of such factors as the parish's early exposure to English, its rapid development of a plantation economy, and its relative insulation from Cajun French. The volume concludes with transcriptions and English translations of Creole folk tales and of Klingler's conversations with Pointe Coupee's residents, a treasure trove of cultural and linguistic raw data. This kind of rarely printed material will be essential in preserving Creole in the future. Encyclopedic in its approach and featuring a comprehensive bibliography, *If I Could Turn My Tongue Like That* is a rich resource for those interested in the development of Louisiana Creole and in Francophony.

Foundation Course in Spanish - Laurel Herbert Turk 1965

Dictionary of Louisiana Creole - Albert Valdman 1998

This important reference work has been compiled from existing written sources dating back to 1850 and from material collected in Bayou Teche, the German Coast, Pointe Coupee, and St. Tammany Parish. The Dictionary Features: an informative User's Guide, including details on orthography and the design of the dictionary articles; a grammatical sketch of the language; a guide to variant pronunciations; English and French meaning equivalents; creole contextual examples; identification of where examples were collected, with special notation for historical items (i.e., pre-1960); two indexes: a French-Creole index and an English-Creole index; and rich cultural information, with many examples of folklore, traditional medicine, religious beliefs, and agricultural practices.
