The Bladerunner - Alan E Nourse 2013-04-12

Billy Gimp was a bladerunner . . . one of the shadowy procurers of illegal medical supplies for the rapidly expanding, nightmare world of the medical black market. Doc was a skilled surgeon at a government-operated hospital by day . . . and an underground physician by night, providing health care for the multitudes who could not - or would not - qualify for legal medical assistance. Trapped by Health Control Police, Billy Gimp knew he had to warn Doc that they were closing in on him. But something even more deadly than the law had already mad its first move . . . a new plague that Health Control could not handle!

The Sound of Cinema - Sean Wilson 2022-04-20

While some film scores crash through theater speakers to claim their place in memory, others are more unassuming. Either way, a film's score is integral to successful world building. This book lifts the curtain on the elusive yet thrilling art form, examining the birth of the Hollywood film score, its turbulent evolution throughout the decades and the multidimensional challenges to musicians that lie ahead. The history of the film score is illuminated by extraordinary talents (like John Williams, Hans Zimmer and countless others). Beginning with vaudeville and silent cinema, chapters explore the wonders of early pioneers like Max Steiner and Bernard Herrmann, and continue through the careers of other soundtrack titans. Leading Hollywood film composers offer in this book fascinating perspectives on the art of film music composition, its ongoing relevance and its astonishing ability to enhance a filmmaker's vision.

Film Music in the Sound Era - Jonathan Rhodes Lee 2020-03-10

Film Music in the Sound Era: A Research and Information Guide offers a comprehensive bibliography of scholarship on music in sound film (1927–2017). Thematically organized sections cover historical studies, studies of musicians and filmmakers, genre studies, theory and aesthetics, and other key aspects of film music studies. Broad coverage of works from around the globe, paired with robust indexes and thorough cross-referencing, make this research guide an invaluable tool for all scholars and students investigating the intersection of music and film. This guide is published in two volumes: Volume 1: Histories, Theories, and Genres covers overviews, historical surveys, theory and criticism, studies of film genres, and case studies of individual films. Volume 2: People, Cultures, and Contexts covers individual people, social and cultural studies, studies of musical genre, pedagogy, and the industry. A complete index is included in each volume.

Blade Runner - William S. Burroughs 1979

In this futuristic screenplay vision of a strife-and-disease-plagued America in 1999, Burroughs finds the cure for a decaying civilization in the medicine practiced by underground physicians and surgeons. These heroic healers, in turn, are aided by 'blade runners,' teenagers who smuggle banned surgical instruments past the watchful eyes of fascistic police. The novel-cum-screenplay follows one of these runners during the course of a race riot and the transfer of instruments between embattled doctors. Above the drama in the streets of New York is a world 'taken over by hang-glider and autogyro gangs, mountaineers and steeplejacks. A sky boy steps off his penthouse into a parachute on guide wires that drop him to a street-level landing ... Meanwhile, released animals and reptiles from the zoo and freed fish from the aquarium have control of the rovers and subways. The prose flashes with Burrough's own brand of outrageousness

and fantasy.

Retrofitting Blade Runner - Judith Kerman 1991

This book of essays looks at the multitude of texts and influences which converge in Ridley Scott's film Blade Runner, especially the film's relationship to its source novel, Philip K. Dick's Do Androids Dream of Electric Sheep? The film's implications as a thought experiment provide a starting point for important thinking about the moral issues implicit in a hypertechnological society. Yet its importance in the history of science fiction and science fiction film rests equally on its mythically and psychologically resonant creation of compelling characters and an exciting story within a credible science fiction setting. These essays consider political, moral and technological issues raised by the film, as well as literary, filmic, technical and aesthetic questions. Contributors discuss the film's psychological and mythic patterns, important political issues and the roots of the film in Paradise Lost, Frankenstein, detective fiction, and previous science fiction cinema.

Future Noir: The Making of Blade Runner - Paul M. Sammon 1996-05-01

The 1992 release of the "Director's Cut" only confirmed what the international film cognoscenti have know all along: Ridley Scott's Blade Runner, based on Philip K. Dick's brilliant and troubling SF novel Do Androids Dream of Electric Sheep, still rules as the most visually dense, thematically challenging, and influential SF film ever made. Future Noir is the story of that triumph. The making of Blade Runner was a seven-year odyssey that would test the stamina and the imagination of writers, producers, special effects wizards, and the most innovative art directors and set designers in the industry. A fascinating look at the ever-shifting interface between commerce and the art that is modern Hollywood, Future Noir is the intense, intimate, anything-but-glamorous inside account of how the work of SF's most uncompromising author was transformed into a critical sensation, a commercial success, and a cult classic.

The Art of Blade Runner: Black Lotus - Roland Kelts 2022-11-29

The Art of Blade Runner: Black Lotus is a study and celebration of the artwork that went into making the first ever Blade Runner animated series. The Art of Blade Runner: Black Lotus is a study and celebration of the artwork that went into making the first ever Blade Runner animated series. Concept art, sketchwork, pre-viz, animation tests, final frames and more, are paired alongside interviews with the masterminds behind the show to give fans the full story of Black Lotus. Respected co-directors Shinji Aramaki and Kenji Kamiyama provide an exclusive, in-depth interview that explores their relationship with the Blade Runner universe, and their intimate analyses of and inspiration behind the characters. Alcon producers describe the creative journey, that spans many years prior, behind what they envisioned for the story, how Black Lotus would fit in the wider Blade Runner narrative, and who they wanted the protagonist to be. The writers explain how they conceptualised the characters and the voice actors share their personal journeys

and light-hearted anecdotes on how they brought those characters to life. The lighting and animation team also share how they captured Blade Runner's cyberpunk visual and auditory palette in a new medium for the franchise: anime. Written by Japanamerica author Roland Kelts, this book is illustrated to the brim with concept art that is beautifully vivid and presented in a gallery format throughout the book; organised chronologically by character, location, and event as they are introduced in the show. Readers will be able to breeze through this companion guide as they watch the show for a deeper, richer, and more personal viewing experience. At the back of the book, you'll find never-before-seen sketches of the Black Out short films that accompanied Blade Runner 2049.

The Blade Runner Experience - Will Brooker 2006-02-21

Since its release in 1982, Ridley Scott's Blade Runner, based on Philip K. Dick's novel *Do Androids Dream of Electric Sheep?*, has remained a cult classic through its depiction of a futuristic Los Angeles; its complex, enigmatic plot; and its underlying questions about the nature of human identity. *The Blade Runner Experience: The Legacy of a Science Fiction Classic* examines the film in a broad context, examining its relationship to the original novel, the PC game, the series of sequels, and the many films influenced by its style and themes. It investigates Blade Runner online fandom and asks how the film's future city compares to the present-day Los Angeles, and it revisits the film to pose surprising new questions about its characters and their world.

Myth and Majesty - Gene N. Landrum 2013-12

Myths can prove magical with many examples. Icons buy into a messianic vision that helps them grow and achieve, with many daring to trek down strange roads where they cope but are astute enough to avoid the also-rans. What do most do? They adopt a mythical message to help them cope like billionaires Ted Turner and Fred Smith did long ago. Both were reared in military academies with heroes like Alexander the Great, Attila the Hun and General George Patton from books they had read. Isadora Duncan and Madonna were of a similar ilk. Be what you are not to be more than you could otherwise be is the message in this work

Typeset in the Future - Dave Addey 2018-12-11

A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL·E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

The Sound of Things to Come - Trace Reddell 2018-10-16

A groundbreaking approach to sound in sci-fi films offers new ways of construing both sonic innovation and science fiction cinema. Including original readings of classics like *The Day the Earth Stood Still*, 2001: A Space Odyssey, Star Wars, and Blade Runner, *The Sound of Things to Come* delivers a comprehensive history of sound in science fiction cinema. Approaching movies as sound objects that combine cinematic apparatus and consciousness, Trace Reddell presents a new theory of sonic innovation in the science fiction film. Reddell assembles a staggering array of movies from sixty years of film history—including classics, blockbusters, B-movies, and documentaries from the United States, Britain, France, Germany, Japan, and the Soviet Union—all in service to his powerful conception of sound making as a speculative activity in its

own right. Reddell recasts debates about noise and music, while arguing that sound in the science fiction film provides a medium for alien, unknown, and posthuman sound objects that transform what and how we hear. Avoiding genre criticism's tendency to obsess over utopias, *The Sound of Things to Come* draws on film theory, sound studies, and philosophies of technology to advance conversations about the avant-garde, while also opening up opportunities to examine cinematic sounds beyond the screen.

The Ridley Scott Encyclopedia - Laurence Raw 2009-09-28

From his first feature film, *The Duellists*, to his international successes *Alien*, *Blade Runner*, *Thelma and Louise*, *Black Hawk Down*, *Gladiator*, and *American Gangster*, Ridley Scott has directed some of the most compelling films of the last 30 years. Apart from his work as a film director, Scott has engaged in a vast range of activities, including that as a designer, producer, film mogul, and advertising executive. *The Ridley Scott Encyclopedia* is the first book that focuses on all aspects of his work in a wide-ranging career that spans nearly 50 years. The entries in this encyclopedia focus on all aspects of his work and are divided into four categories. The first focuses on Ridley Scott's work as a director, encompassing his feature films from *The Duellists* to *Body of Lies*, as well as his work in television, including commercials. The second category focuses on the people who have been involved in Scott's projects, including actors, directors, producers, designers, writers and other creative personnel. The third focuses on general thematic issues raised in Scott's work, such as gender construction, political issues, and geographical locations. Finally the encyclopedia incorporates entries on films by other directors who have influenced Scott's approach to his work as a director or producer. Each entry is followed by a bibliography of published sources, both in print and online, making this the most comprehensive reference on Scott's body of work.
