*The Total Work of Art in European Modernism* - David Roberts 2011-11-15

In this groundbreaking book David Roberts sets out to demonstrate the centrality of the total work of art to European modernism since the French Revolution. The total work of art is usually understood as the intention to reunite the arts into the one integrated whole, but it is also tied from the beginning to the desire to recover and renew the public function of art. The synthesis of the arts in the service of social and cultural regeneration was a particularly German dream, which made Wagner and Nietzsche the other center of aesthetic modernism alongside Baudelaire and Mallarmé. The history and theory of the total work of art pose a whole series of questions not only to aesthetic modernism and its utopias but also to the whole epoch from the French Revolution to the totalitarian revolutions of the twentieth century. The total work of art indicates the need to revisit key assumptions of modernism, such as the foregrounding of the autonomy and separation of the arts at the expense of the countertendencies to the reunion of the arts, and cuts across the neat equation of avant-gardism with progress and deconstructs the familiar left-right divide between revolution and reaction, the modern and the antimodern. Situated at the interface between art, religion, and politics, the total work of art invites us to rethink the relationship between art and religion and art and politics in European modernism. In a major departure from the existing literature David

Roberts argues for twin lineages of the total work, a French revolutionary and a German aesthetic, which interrelate across the whole epoch of European modernism, culminating in the aesthetic and political radicalism of the avant-garde movements in response to the crisis of autonomous art and the accelerating political crisis of European societies from the 1890s forward.

**Integrating Qualitative and Social Science Factors in Archaeological Modelling** - Mehdi Saqalli 2019-07-04

This book covers the methodological, epistemological and practical issues of integrating qualitative and socio-anthropological factors into archaeological modeling. This text fills the gap between conceptual modeling (which usually relies on narratives describing the life of a past community) and formalized/computer-based modeling which are usually environmentally-determined. Methods combining both environmental and social issues through niche and agent-based modeling are presented. These methods help to translate data from paleo-environmental and archaeological society life cycles (such as climate and landscape changes) into the local spatial scale. The epistemological discussions will appeal to readers as well as the resilience socio-anthropological factors provide facing climatic fluctuations. Integrating Qualitative and Social Science Factors in Archaeological Modelling will appeal to students and researchers in the field.

**Textbook for Transcultural Health Care: A Population Approach** - Larry D. Purnell 2020-09-05

This textbook is the new edition of Purnell's famous *Transcultural Health Care*, based on the Purnell twelve-step model and theory of cultural competence. This textbook, an extended version of the recently published *Handbook*, focuses on specific populations and provides the most recent research and evidence in the field. This new updated edition discusses individual competences and evidence-based practices as well as international standards, organizational

cultural competence, and perspectives on health care in a global context. The individual chapters present selected populations, offering a balance of collectivistic and individualistic cultures.

Featuring a uniquely comprehensive assessment guide, it is the only book that provides a complete profile of a population group across clinical practice settings. Further, it includes a personal understanding of the traditions and customs of society, offering all health professionals a unique perspective on the implications for patient care.

**City** - Douglas W. Rae 2008-10-01

How did neighborhood groceries, parish halls, factories, and even saloons contribute more to urban vitality than did the fiscal might of postwar urban renewal? With a novelist's eye for telling detail, Douglas Rae depicts the features that contributed most to city life in the early "urbanist" decades of the twentieth century. Rae's subject is New Haven, Connecticut, but the lessons he draws apply to many American cities. *City: Urbanism and Its End* begins with a richly textured portrait of New Haven in the early twentieth century, a period of centralized manufacturing, civic vitality, and mixed-use neighborhoods. As social and economic conditions changed, the city confronted its end of urbanism first during the Depression, and then very aggressively during the mayoral reign of Richard C. Lee (1954-70), when New Haven led the nation in urban renewal spending. But government spending has repeatedly failed to restore urban vitality. Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed-use city life so appealing and so civilized. Cities need not reach their old peaks of population, or look like thriving suburbs, to be once again splendid places for human beings to live and work.

Solidarity - K. Bayertz 2013-03-09

Solidarity as a phenomenon lies like an erratic block in the midst of the moral landscape of our age. Until now, the geologists familiar with this landscape - ethicists and moral theorists - have taken it for granted, have circumnavigated it! In any case, they have been incapable of moving it. In the present volume, scientists from diverse disciplines discuss and examine the concept of solidarity, its history, its scope and its limits.

**iGen** - Jean M. Twenge 2017-08-22

As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their

friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.

Principles and Practice of Anesthesia for Thoracic Surgery - Peter Slinger, MD, FRCPC  
2011-07-12

Principles and Practice of Anesthesia for Thoracic Surgery will serve as an updated comprehensive review covering not only the recent advances, but also topics that haven't been covered in previously published texts: extracorporeal ventilatory support, new advances in chest imaging modalities, lung isolation with a difficult airway, pulmonary thrombo-endarterectomy, and chronic post-thoracotomy pain. Additionally, the book features clinical case discussions at the end of each clinical chapter as well as tables comprising detailed anesthetic management.

**The Wisdom of Midlife** - Frank Natale  
2013-05-31

It is inevitable, between the ages of 39 and 55, that each of us will be confronted with a profound crisis of identity. "Now what?" we ask. The Wisdom of Midlife presents the opportunity to reclaim the passion, power and purpose we have either lost or denied. "The difficulty with this passage is that it is seen as a breakdown, an emotional and psychological failing," Frank Natale writes. "Middle age is not the beginning of decline. This is a time to reach for the highest

in our selves. Middle age is a pause to re-examine what we have done and what we will do in the future. This is the time to give birth to our power."For thousands of years, conscious cultures have celebrated life as a circular path with rites of passage and spiritual completions. Midlife is the most powerful because, at this turning point, we often feel betrayed, unfulfilled and face our mortality for the first time. "Once we are able to think and live in circles rather than lines," Natale counsels. "We are rewarded with passages that guide our consciousness in its spiritual development and greater awareness. When we experience life as a circle we are complete."Frank Natale created and presented Rites of Passage seminars throughout the United States and Europe. This book shares Natale's unique perspectives on the passages that precede midlife, from coming of age through the realization of betrayal, so we may transform this traumatic period of chaos and confusion with a clear map for conscious living. Through renewed self-awareness we embrace the priorities of integrity, forgiveness and acceptance that empower us to realize greater wisdom, creativity and joy in our lives. The Wisdom of Midlife provides context for the passages leading up to and following what Natale termed "Mid-Birth" with five concise chapters: Prerequisites for the Mid-Birth Passage, Reclaiming the Power of Consciousness, The Conscious Work of Mid-Birth, Completing the Early Traumas of Life, The Transformational Powers of Mid-Birth.

*That Winter* - Pamela Gillilan 1986

Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

**The Future of Risk Management** - Howard Kunreuther 2019-07-26

Whether man-made or naturally occurring, large-scale disasters can cause fatalities and injuries, devastate property and communities, savage the environment, impose significant financial burdens on individuals and firms, and test political leadership. Moreover, global challenges such as climate change and terrorism reveal the interdependent and interconnected nature of our current moment: what occurs in one nation or geographical region is likely to have effects across the globe. Our information age creates new and more integrated forms of communication that incur risks that are difficult to evaluate, let alone anticipate. All of this makes clear that innovative approaches to assessing and managing risk are urgently required. When catastrophic risk management was in its inception thirty years ago, scientists and engineers would provide estimates of the probability of specific types of accidents and their potential consequences. Economists would then propose risk management policies based on those experts' estimates with little thought as to

how this data would be used by interested parties. Today, however, the disciplines of finance, geography, history, insurance, marketing, political science, sociology, and the decision sciences combine scientific knowledge on risk assessment with a better appreciation for the importance of improving individual and collective decision-making processes. The essays in this volume highlight past research, recent discoveries, and open questions written by leading thinkers in risk management and behavioral sciences. *The Future of Risk Management* provides scholars, businesses, civil servants, and the concerned public tools for making more informed decisions and developing long-term strategies for reducing future losses from potentially catastrophic events.

[Relationships for Life](#) - Frank Natale 2014

The qualities of aliveness and consciousness in our relationships determine the quality of our life. Based on his popular Relationships seminar series, Natale reveals how to recognize and recreate the 20 vital qualities. "In seeking these qualities," Natale writes, "You will gain an opportunity for greater awareness of your self,

which is the highest achievement any of us can accomplish at any given moment." These qualities are found in personal and romantic situations and are also evident or lacking in our relationships with money, religion, career and authority. They are the indicators of the status of our relationship with everything that is our life. This book will influence the manner in which you experience your relationships, help you assess these qualities and make the choice to acquire them. Natale's 20 vital qualities of aliveness include: Responsibility; Service and Acknowledgment; Affinity and Trust; Effective Communication; Self Esteem; Honorable Sexuality; Health; Forgiveness; Laughter, Humor and Playfulness; Relatedness and the Presence of Love.

**Language and Language Acquisition** - F. Lowenthal 2012-12-06

F. LOWENTHAL University of Mons Mons, Belgium In September 1980, researchers from many different countries and working in disciplines as varied as philosophy, psychology, neurology, mathematics, education, linguistics, sociology, and others we forget to mention, again met in Mons to discuss problems concerning Language and Language Acquisition. Conflicting opinions among researchers not only from different disciplines, but also within a same discipline, led to many a lively discussion. This book attempts to recreate the atmosphere of the conference, by reproducing the different papers, some of which were rewritten after the initial presentation and discussion-session, and by giving a summary of each discussion session to enable the reader to understand how each participant reacted. Obviously, we accept full responsibility for these summaries: we hope we have understood correctly what each participant meant. This also holds for the special session devoted to an attempt to define the concept of "language". We suggest that further meetings should study language and context simultaneously, within the framework of a "CONTEXTUAL LINGUISTICS".

**Learning Targets** - Connie M. Moss 2012-07-02  
In *Learning Targets*, Connie M. Moss and Susan M. Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson--what they call "today's lesson"—or it doesn't happen at all. The key to making today's lesson meaningful? Learning targets. Written from students' point of view, a learning target describes a lesson-sized chunk of information and skills that students will come to know deeply. Each lesson's learning target connects to the next lesson's target, enabling students to master a coherent series of challenges that ultimately lead to important curricular standards. Drawing from the authors' extensive research and professional learning partnerships with classrooms, schools, and school districts, this practical book - Situates learning targets in a theory of action that students, teachers, principals, and central-office administrators can use to unify their efforts to raise student achievement and create a culture of evidence-based, results-oriented practice. - Provides strategies for designing learning targets that promote higher-order thinking and foster student goal setting, self-assessment, and self-regulation. - Explains how to design a strong performance of understanding, an activity that produces evidence of students' progress toward the learning target. - Shows how to use learning targets to guide summative assessment and grading. *Learning Targets* also includes reproducible planning forms, a classroom walk-through guide, a lesson-planning process guide, and guides to teacher and student self-assessment. What students are actually doing during today's lesson is both the source of and the yardstick for school improvement efforts. By applying the insights in this book to your own work, you can improve your teaching expertise

and dramatically empower all students as stakeholders in their own learning.

**Comparisonitis** - Melissa Ambrosini 2021-05-11  
Multiple bestselling author Melissa Ambrosini (*Mastering Your Mean Girl*, *Open Wide*, *PurposeFULL*) and host of the #1 podcast *The Melissa Ambrosini Show* puts the condition of Comparisonitis under the microscope, unpacking the symptoms, and offering practical tips you can start using immediately to break the cycle of comparison, free up mental bandwidth, and live life on your own terms. When you cure Comparisonitis, you will... • Be free to live your life for you (no one else) • Feel peace from within • Experience genuine happiness • Truly appreciate your body and life • Free up SO much mental bandwidth for things you LOVE • Quit beating yourself up • Have more energy to go after the things that truly matter to you • Experience a radical shift towards authenticity • Be a better friend, partner, parent, family member, colleague, human • Free yourself from expectations • Unleash the courage to go after your dreams • Unstifle your creativity • Feel more liberated than you've ever felt in your life • And much more It creeps up on you without warning—perhaps while chatting with a friend, scrolling through social media, or even just while walking down the street. All it takes is the hint of someone doing or having something you perceive as "better" than you, and it hits. A feeling takes over—intense, blinding, gutting. Your brain starts spinning with toxic thoughts about yourself (or others), and you're left feeling ashamed, guilty, and even worthless. It's called comparisonitis. And if you've suffered from it, you're NOT alone. Comparisonitis is a contagious, socially transmitted condition that occurs when you compare yourself to others so frequently and fiercely that you're left paralyzed, with your confidence in tatters and your self-worth plummeting. It may sound trivial, but this affliction can have serious adverse effects on our mental health, leading to depression, anxiety, overthinking, and regret. To make matters worse, our comparison culture is only expanding. Thanks to social media, we have more opportunities to compare ourselves than ever before, and even kids are falling into the trap. Described as a "self-help guru" by *Elle* magazine, Melissa has experienced the effects of

comparisonitis first hand, having worked extensively in industries like acting, modeling and dancing where comparison culture is not only rampant but openly encouraged. Melissa knows all too well how comparisonitis is infecting our minds and hurting our hearts, and in this book, she'll help you heal from this disease, liberate your headspace, and raise your self-worth so radically that you'll never let comparison rob you of your joy and happiness again.

*Flemish Manuscript Painting in Context* - Elizabeth Morrison 2007-01-08

A companion to the Getty's prize-winning exhibition catalogue *Illuminating the Renaissance: The Triumph of Flemish Manuscript Painting in Europe*, this volume contains thirteen selected papers presented at two conferences held in conjunction with that exhibition. The first was organized by the Getty Museum, and the second was held at the Courtauld Institute of Art under the sponsorship of the Courtauld Institute and the Royal Academy of Arts. Added here is an essay by Margaret Scott on the role of dress during the reign of Charles the Bold. Texts include Lorne Campbell's research into Rogier van der Weyden's work as an illuminator, Nancy Turner's investigation of materials and methods of painting in Flemish manuscripts, and trenchant commentary by Jonathan Alexander and James Marrow on the state of current research on Flemish illumination. A recurring theme is the structure of collaboration in manuscript production. The essays also reveal an important new patron of manuscript illumination and address the role of illuminated manuscripts at the Burgundian court. A series of biographies of Burgundian scribes is featured.

**The Deepest Acceptance** - Jeff Foster 2012-11-01

How can we bring an effortless yes to this moment? How do we stop running from "the mess of life"—our predicaments, our frustrations, even our search for liberation—and start flowing with all of it? In small venues throughout the UK and Europe, a young teacher

named Jeff Foster is quietly awakening a new generation of spiritual inquirers to the experience of abiding presence and peace in our ever-shifting world. His informal gatherings, blogs, and kitchen-table video posts have created a rising tide of interest in his teachings. With *The Deepest Acceptance*, Jeff Foster invites us to discover the ocean of who we are: an awareness that has already allowed every wave of emotion and experience to arrive. While Jeff delightfully admits the irony of writing a book to convey something that is beyond words to teach, here he confirms his ability to guide us in unexpected new ways to a space of absolute acceptance and joy, no matter what's happening in our lives. Candid, thoughtful, humorous—and deeply compassionate toward those searching for a way out of suffering—this refreshing new luminary inspires us to stop trying to "do" acceptance ... and start falling in love with "what has already been allowed." "Wise, spacious, and loving. Teachings that can free the heart." —Jack Kornfield, author of *A Lamp in the Darkness* and *A Path With Heart* "There is a transmission in this book: an alive, compassionate presence that invites awakening right here, this very moment, no matter what is going on in our lives." —Tara Brach, PhD, author of *Radical Acceptance* and *True Refuge* "A beautifully written guide to the fearlessness and simplicity of living fully immersed in each moment of our lives. *The Deepest Acceptance* rings with the power and authenticity of Jeff Foster's deeply felt, deeply lived wisdom. His affirmation of life and compassion for the full range of human experience is a much needed contribution." —Judith Blackstone, PhD, author of *Belonging Here* and *The Intimate Life* "Jeff Foster is an honest seeker who has unraveled the many trappings of seeking through his faithfulness to the humble ground of being here, now, and his book is a gentle and helpful companion on the journey." —Mark Nepo, author of *Staying Awake* and *Seven Thousand Ways to Listen* "The Deepest Acceptance is the story of a merciful awareness, which offers us the heart's inborn destination we were born to discover. Love is the highest form of acceptance. Judgment is the mechanics of non-acceptance." —Stephen Levine, author of *A Year to Live* "The Deepest Acceptance is a multi-faceted spiritual gem.

Every page transparently illuminates our real nature as naturally accepting, centerless awareness. Jeff has performed a great service in revealing awareness as the already-present source for living our lives in the most loving and meaningful way possible. I am immensely grateful to Jeff for bringing forth the essence of his teaching with such great power, love and sensitivity. A timeless classic through which numberless people will connect with the source of ultimate fulfillment." —Peter Fenner, PhD, author of *Radiant Mind* and *The Edge of Certainty* "Jeff has achieved something wonderful with this honest and insightful book - something that benefits all of us and sheds much-needed light on the mystery we call life." —Stephen Gawtry, Managing Editor, *Watkins Mind Body Spirit* magazine "Throughout *The Deepest Acceptance*, Jeff Foster offers sentence after sentence that penetrate the mind and heart in a fresh, thrilling, life-changing way." —Raphael Cushnir, author of *The One Thing Holding You Back* and *Surfing Your Inner Sea* [The Art of Systems Architecting, Third Edition](#) - Mark W. Maier 2009-01-06

If engineering is the art and science of technical problem solving, systems architecting happens when you don't yet know what the problem is. The third edition of a highly respected bestseller, *The Art of Systems Architecting* provides in-depth coverage of the least understood part of systems design: moving from a vague concept and limited resources to a satisfactory and feasible system concept and an executable program. The book provides a practical, heuristic approach to the "art" of systems architecting. It provides methods for embracing, and then taming, the growing complexity of modern systems. New in the Third Edition: Five major case studies illustrating successful and unsuccessful practices Information on architecture frameworks as standards for architecture descriptions New methods for integrating business strategy and architecture and the role of architecture as the technical embodiment of strategy Integration of process guidance for organizing and managing architecture projects Updates to the rapidly changing fields of software and systems-of-systems architecture Organization of heuristics around a simple and practical process model A

*Practical Heuristic Approach to the Art of Systems Architecting* Extensively rewritten to reflect the latest developments, the text explains how to create a system from scratch, presenting invention/design rules together with clear explanations of how to use them. The author supplies practical guidelines for avoiding common systematic failures while implementing new mandates. He uses a heuristics-based approach that provides an organized attack on very ill-structured engineering problems. Examining architecture as more than a set of diagrams and documents, but as a set of decisions that either drive a system to success or doom it to failure, the book provide methods for integrating business strategy with technical architectural decision making.

*Burns and Grove's The Practice of Nursing Research - E-Book* - Jennifer R. Gray 2020-07-21 Winner of the 1st-place American Journal of Nursing Book of the Year award in nursing research/evidence-based practice for 2021! Burns & Grove's *The Practice of Nursing Research: Appraisal, Synthesis, and Generation of Evidence*, 9th Edition is the trusted resource for those wanting to master the research methods that are foundational to evidence-based practice. This highly respected textbook covers how to appraise and apply existing research evidence, as well as how to participate in research and quality improvement projects. This new 9th edition has been extensively updated to reflect today's focus on online research in the digital era and includes clear, step-by-step guidelines for all major quantitative and qualitative research approaches — including supporting examples from the latest high-quality literature. There's also new content on translational research, coverage of the most current research tools and techniques, and an increased use of illustrations, tables, and other

visuals to help engage visually oriented readers of all levels. Coverage of quantitative, qualitative, and other research methodologies provides a solid foundation to conduct, appraise, and apply research evidence to the realities of today's clinical practice. Balanced coverage of qualitative and quantitative methods addresses the qualitative research methodologies that are often the starting point of research projects, particularly in magnet hospitals and DNP programs. Clear, comprehensive coverage is organized into five units that include: an introduction to nursing research; coverage of the research process; application for evidence-based health care; how to analyze data, determine outcomes, and disseminate research; and how to propose and seek funding for research. Strong emphasis on evidence-based practice addresses this key graduate-level QSEN competency and reinforces how to generate research evidence and appraise and synthesize existing research for application to clinical practice. Rich examples from nursing literature bring research principles to life. Emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research, as well as outcomes research and mixed-methods research. Coverage of digital data collection examines the use of online research tools. Quick-reference summaries include a table of research methods inside the front cover and a list of types of research syntheses (with definitions) inside the back cover. Helpful user resources are included with each new text purchase on the companion Evolve website and feature 400 interactive review questions along with a library of 10 full-text research articles.

*Results* - Frank Natale 2015-10-08

"Most paths of self-correction purposely increase the effort and struggle to achieve these states or vibrations. They insist you must 'earn it' or 'surrender to it' or 'get it' when the truth is you already have immediate access to all of it." Since introduction in the early 1980s, Frank Natale's foundational program, *Results: The Willingness to Create*, has transformed tens of thousands of lives in profound and meaningful ways. Now it's your turn. The secret, and it can be this simple, is your choice to embrace your highest self and become the creative force in your life. Success is

not a secret. Success is a way of thought. This is your opportunity to clear your mind and be free to create the life you choose. By yourself, or working with a group, the six-week *Results* course will refocus the way you think about your life and manifest results. Create your new life now. Week 1: How all results are determined by your thoughts; Refocus your attention and choose a list of results that you truly want. Week 2: Your point of view and opinions create your reality; The power of the results cycle, creativity, cause and correction. Week 3: How to create momentum and a new self-image; Perception and the inherent power of choice and commitment. Week 4: Your wall of beliefs and how they limit your results; Create collective thought, agreement and results without delay. *The Dragoman Renaissance* - E. Natalie Rothman 2021-03-15

In *The Dragoman Renaissance*, E. Natalie Rothman traces how Istanbul-based diplomatic translator-interpreters, known as the dragomans, systematically engaged Ottoman elites in the study of the Ottoman Empire—eventually coalescing in the discipline of Orientalism—throughout the sixteenth and seventeenth centuries. Rothman challenges Eurocentric assumptions still pervasive in Renaissance studies by showing the centrality of Ottoman imperial culture to the articulation of European knowledge about the Ottomans. To do so, she draws on a dazzling array of new material from a variety of archives. By studying the sustained interactions between dragomans and Ottoman courtiers in this period, Rothman disrupts common ideas about a singular moment of "cultural encounter," as well as about a "docile" and "static" Orient, simply acted upon by extraneous imperial powers. *The Dragoman Renaissance* creatively uncovers how dragomans mediated Ottoman ethno-linguistic, political, and religious categories to European diplomats and scholars. Further, it shows how dragomans did not simply circulate fixed knowledge. Rather, their engagement of Ottoman imperial modes of inquiry and social reproduction shaped the discipline of Orientalism for centuries to come. Thanks to generous funding from the Andrew W. **The Circle of Life** - Frank Natale 2021-06-21  
Awareness of the natural progression of life transforms chaos and crisis into opportunities for knowledge and personal growth. With insight and humor, Frank Natale shares his wisdom on

the thirteen inevitable rites of passage and how *The Circle of Life* illuminates our path of spiritual development through four phases: Preparation, Initiation, Integration, and Realization. "Transformation is the essence of being alive," Natale writes. "These passages are the doorways to our power and spiritual evolution. The passages within the Circle of Life are so powerful that knowing what they are and when they will come is not enough to avoid them. The only possibility we have is to accept and extract value from them while consciously experiencing them." A native New Yorker, in 1967 Natale co-founded Phoenix House in New York, which became the largest residential treatment facility for chemical dependency in the United States. After twelve years as clinical director, Natale left to focus on successful, functioning personalities who want to experience new levels of creativity and aliveness. Working throughout the United States, Europe and Australia, Natale's teaching emphasized self-discovery, personal responsibility and choice as paths to conscious living and spiritual growth.

**Vittorio De Sica** - Stephen Snyder 2000-01-01  
Recognized as a master of Italian cinema, Vittorio De Sica is perhaps best known and most respected for his critically acclaimed neorealist films of the period 1946-55. As this anthology reveals, however, his production was remarkably multifaceted. The essays included here - some newly commissioned, some reprinted, and others in translation - look at De Sica's varied career from many perspectives. Structured chronologically, the volume begins by introducing readers to De Sica's early popularity as an actor and singer during the years of Italian Fascism, and to his initial directorial efforts before the end of World War II. It was not until the postwar era, however, that De Sica made his mark in film history. Special attention is given to this critical phase of his career, which encompasses the neorealist films that made him famous: "Shoeshine", "Bicycle Thieves", "Miracle

in Milan", and "Umberto D." When the neorealist movement waned after 1955, De Sica returned to his roots in Neapolitan comedy for a series of commercially successful films starring Sophia Loren and Marcello Mastroianni. Memorable works from this period include "Two Women" and "Marriage Italian Style" as well as "Yesterday, Today, and Tomorrow", which won De Sica an Academy Award in 1965. In one of his

final films, "The Garden of the Finzi Continis", he returned to the subject of World War II and to the human tragedy characteristic of his best neorealist productions. This fine anthology offers a comprehensive critical survey that covers the entire scope of De Sica's career, and is an excellent resource for students, critics and film enthusiasts.
